DETAILED ACTION

Response to Amendment

This Office Action is in response to the amendment filed on January 9, 2006.

Accordingly, claim 6 was canceled, claims 1-4, 7, 10, 11, 13-16 and 18 were amended, and new claims 26 and 27 were added.

Newly submitted claim 27 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 27 is drawn to a product-by-process (semiconductor device), classified in class 257, subclass 678. Product-by-process claims are not limited to the manipulations of the recited steps, only the structure implied by the steps. "[E]ven though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process." *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 27 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Thus, claims 19-25 and 27 are withdrawn from consideration as being directed to a non-elected invention.

Currently, claims 1-5 and 7-27 are pending.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Please cancel claims 19-25 and 27.

Allowable Subject Matter

Claims 1-5, 7-18 and 26 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, taken alone or in combination, fairly discloses all the limitations as claimed.

Re claim 1, none of the prior art of record fairly shows or suggests the following limitations in combination with the rest of the limitations in the claim: removing the substrate from the bottom sides of at least two of the plurality of semiconductor dice wherein removing includes the step of backgrinding the substrate from the at least two semiconductor dice; and bending the thin film interconnect at the one or more bending regions.

Re claim 10, none of the prior art of record fairly shows or suggests the following limitations in combination with the rest of the limitations in the claim: removing the substrate from the bottom sides of at least two of the plurality of semiconductor dice wherein the step of removing the substrate comprises the step of performing laser ablation; and bending the thin film interconnect at the one or more bending regions.

Art Unit: 2822

Re claim 15, none of the prior art of record fairly shows or suggests the following limitations in combination with the rest of the limitations in the claim: removing the substrate from the bottom sides of at least two of the plurality of semiconductor dice; singulating at least two of the plurality of semiconductor dice into sub-pluralities of semiconductor die by etching dielectric layers along unused sides of the dice; and bending the thin film interconnect at the one or more bending regions.

Re claim 16, none of the prior art of record fairly shows or suggests the following limitations in combination with the rest of the limitations in the claim: backgrinding the substrate from the bottom sides of at least two of the plurality of semiconductor dice; and bending the flexible member at the bending region to form a multidimensional interconnected dice structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
